* NEN-EN13501-1 A1

Class A1 products will not contribute in any stage of the fire including the fully developed fire. For that reason they are assumed to be capable of satisfying automatically all requirements of all lower classes.

APPLICATIONS

Private: on terraces, patios, ...

Public: hotel and catering industry, company terraces, ...

IMPORTANT

We strongly advice to store the blanket & cushion indoors when the Walrus is not used regularly.

MAINTENANCE

BLANKET & CUSHIONS (SUNBRELLA)

General cleaning can be done with lukewarm water and mild soap, using a sponge or a soft birstle brush.

To clean mildew or other stubborn stains, a specific mixture of bleach, mild detergent and water can be used. Always rinse the fabric thoroughly after cleaning. Air dry.

It's also possible to put the blanket and the pillow covers in a washing machine (max 40°C).

Do not clean or put in a tumble dryer.

CUSHIONS (TARPAULIN)

The tarp material on the Walrus is easy to clean with lukewarm water, mild soap and cloth or a soft sponge (never use the scrubbing side or a hard brush).

With every Walrus come two miracleclean sponges. These sponges may only be used on marks or stains when normal cleaning is not enough. After cleaning, just let it dry, or wipe with a clean towel for an even better result.

Dependent on the conditions the Walrus is placed in, we advise to clean it every now and then. (e.g. rain, dust, proximity of trees, pets, insects, climate).

Also keep in mind that white is a more sensitive colour for outdoor use.

GOOD TO KNOW

1. Walrus Corner seat is also available with 2 back rests, this way you have an extra storage pouch to hide blankets, cushions, ...
2. An ingenious storage pouch in the back of the Walrus hides a foldout blanket and a thick cushion, to provide the softness, comfort and touch appreciated in contact with your body.

F.A.Q.

Q: Is it for outdoors?

A: Yes, the parts that are permanently exposed to the elements are made of an extremely durable tarpaulin material (used for trucks) that does not absorb any water.

Q: Do you need to oil the wood?

A: When delivered, the wood is untreated. Exposure to sun and rain will gradually change their colour to silvery grey, and also roughen the surface. If you want to somewhat retain their original colour, you should oil them once a year. We recommend using RMC Hybrid Wood Protector. This treatment will also reduce the wood's proneness to splits, cracks, (grease) stain absorption, etc. To clean the wood you can use special products (www.rmc-extremis.com) or simply a stiff bristle brush and some water. Be careful not to irreparably damage the wood fibres. For this reason, never use a high pressure cleaner.

MAINTENANCE

Download the manuals from our website for maintenance instructions.
