Class A1 products will not contribute to fire in any stage, including fully developed fire. For this reason, they are assumed to be capable of satisfying all requirements of all lower classes as well.

Applications

Residential: on terraces, patios or courtyard, indoor as well as outdoor

Project: hotel and catering industry, company terraces, public spaces, squares, event venues, schools, office, meeting room, bar, office, ...

Maintenance

Find maintenance instructions at the downloads section of extremis.com for:

BLANKET & CUSHIONS (SUNBRELLA)

- Shake or brush off loose dirt immediately.
 - Spray Extremis Multi Cleaner
 - Use a soft brush and make circular movements.
 - Let the suds soak in for a moment.
 - Rinse thoroughly to remove all soap residue.
 - Simply allow to dry.
- It's also possible to put the blanket and the pillow covers in a washing machine (max 40°C). Follow the cleaning instruction on the label

CUSHIONS (TARPAULIN)

- The tarp material on the Walrus is easy to clean with Extremis MultiCleaner and an Extremis brush.
- With every Walrus come two miracle clean sponges. These sponges may only be used on marks or stains when normal cleaning is not enough. After cleaning, just let it dry, or wipe with a clean towel for an even better result.
- Dependent on the conditions the Walrus is placed in, we advise to clean frequently. (e.g. rain, dust, proximity of trees, pets, insects, climate).
- **Also keep in mind that white is a more sensitive colour for outdoor use.**

GALVANISED PARTS

- How to repair a damaged zinc layer

WOOD

- Cleaning regularly with mild detergent
- Thorough cleaning with Extremis Wood Cleaner
- Oiling the wood with Extremis Wood Protector. We recommend oiling the wood once or twice a year. 1x before the summer and 1x after the summer as protection for the winter.
- In order to smoothen the surface again after a thorough cleaning, lightly sand your wood with 80 grit sanding paper or a sanding pad.

F.a.q.

Q: Is it for outdoors?

A: Of course, the parts that are permanently exposed to the elements are made of an extremely durable tarpaulin material (used for trucks and tents) that does not absorb any water.

Q: Do you need to oil the wood?

A: Just like other types of wood, Iroko will gradually become rougher and start to turn grey as a consequence of exposure to the sun and rain. Small cracks and crevices can also appear as part of this process. We strongly advise everyone to treat the furniture with our Wood Protector. This 100% natural oil controls the moisture level within the wood, which makes the planks stay stable for longer, and the layer of oil also helps to prevent spilled liquids from being absorbed, so that stains tend to stay superficial. It is best to repeat this treatment at regular intervals.

Important

- We strongly advise to store the blanket & cushions indoors when the Walrus is not used frequently.
- In order to open and close the storage pouch, Walrus should be placed at a distance of at least 50 cm from a wall, the fence, the pool, ...

Good to know

- Walrus corner seat is also available with two backrests, this way you have an extra storage pouch to hide blankets, cushions, drinks, atmosphere lights
- An ingenious storage pouch in the back of the Walrus hides a foldout blanket and a thick cushion, to provide the softness, comfort and touch appreciated in contact with your body.
- The comfort cushion filling is delivered inside the storage pouch. The Sunbrella cover comes in a separate colli.
