Wheelchair accessibility dimensions

As specifications for wheelchair accessibility vary around the world.

please review the dimensions below to ensure the measurements of each solution meet the specifications of your local requirements

The Marina double desk is wheelchair accessible

Marina double desk + Captain's Chairs

How many people can sit on a Marina double desk?

Materials & colors

Check price list or www.extremis.com for current materials & colors

Tabletop, legs & endcaps

Materials	Key facts	Thickness	Layer thickness	Density	In/outdoor	Water	UV color fastness	Flame retarding
		inch	micron					
Coated fiberglass tabletop	<ul style="list-style-type: none"> Made with pultrusion technique: a non-stop process of fibre glass wires pulled through a bath of polyester Strong Lightweight 	0,10	n.a.	0,11 10 ⁹ lb/ft ³	Outdoor & indoor	n.a.	Very good: color can fade to some extent when exposed to UV	/
Structured powder coated zinc steel legs	<ul style="list-style-type: none"> Easy to clean Electro galvanized (for extra protection against rust), then powder coated More scratch-resistant than non structured powder coating 	0,11	100	0,47 10 ⁹ lb/ft ³	Outdoor & indoor	n.a.	Very good: color can fade to some extent when exposed to UV	NEN-EN13501-1 A1 *
Polyamide feet	<ul style="list-style-type: none"> Injection-moulded nylon Adjustable in height and surface 	n.a.	n.a.	0,07 10 ⁹ lb/ft ³	Outdoor & indoor	n.a.	Very good	/

NEN-EN13501-1 A1

Class A1 products will not contribute to fire in any stage, including fully developed fire. For this reason, they are assumed to be capable of satisfying all requirements of all lower classes as well.

Warranty

Our quality promise, made solid. Material based warranty.

Each material has unique properties, and the warranty covers issues specific to each. Steel should not rust, coatings should not peel, and wood should not rot. We have outlined the warranty coverage for all materials in our Warranty Chart for your convenience.

Based on our 30 years of expertise with wood, fabrics and metals, we now offer 5 to 15 years warranty.

	<p>GALVANIZED STEEL Enjoy an impressive 15-year warranty on all galvanized steel parts. We proudly use this exceptional Cradle to Cradle certified technique to protect steel from rusting, incorporating it into nearly all our designs.</p>
	<p>COATED METALS, STAINLESS STEEL, WOOD AND SUNBRELLA We offer a comprehensive 5-year warranty on all powder coated metal parts, stainless steel components, wooden parts, and Sunbrella fabrics. This extension ensures that all key materials of our products are covered</p>

						
	Galvanized steel	Stainless steel	Coated metals	Wood species	Sunbrella fabrics	Other materials
Structural — Functional	15 years	5 years	5 years	5 years	5 years	2 years
Rust	15 years	5 years	5 years			
Wood rot				5 years		
Cracks				5 years for cracks > 4 mm		
Terms apply: Please read our commercial warranty statement here						

Good to know

- 27.5 in chair space / person.
- The average transport volume is 6.0 ft³ / person, which is really low.
- Fiberglass reinforced polyester resin material is made with the so-called pultrusion technique. Pultrusion is a non-stop process of pulling fiberglass wires through a bath of polyester resin and letting them harden in a matrix afterwards to get their final shape.
- Main advantages of this material are its strength and low weight.

- Marina table comines perfectly with Captain's Chairs.

Maintenance

www.extremis.com/maintenance

POWDER COATED PARTS

- Use Extremis multi cleaner, a 100% biodegradable detergent or common kitchen cleaning products. Avoid using aggressive products. These surfaces are best cleaned with a neutral cleaning product diluted in water.

F.A.Q.

Q: What is the biggest size possible?

A: We have produced a 1181 inch table, the only problem is transport. We can deliver tables up to 236.25 inch without extra costs.

Q: Are the legs corrosion-resistant?

A: The legs are first galvanized, and powder-coated afterwards. This way, we have a double protection layer.

Warnings

General

- Do not use any sharp tools to open the packaging.
- We strongly advise against using power tools.
- Tripping hazard, mind your step.
- Do not put out cigarettes on the table.
- Not graffiti proof.
- Do not leave children unattended whilst playing on the table.
- To avoid danger of suffocation, keep plastic bags away from babies and children.
- Colors can differ over years and from batch to batch.

Product

- Do not drag the table, but carry it with minimum 2 people.
- We strongly advise you against standing on top of the table! A concentrated load can cause small

perceptible cracks in the profiles that might be visually annoying, although they do not affect the strength of the table in any way.

- For table with 3 legs or more, we recommend using trestles to attach the table leg assemblies to the tabletop, instead of keeping it upside down.

Coated fiberglass

- Do not use abrasive scouring powders or scourers as they will scratch the surface.
- Color can fade to some extent when exposed to UV.
- Dark colors can get very hot in sunny weather.

Powder coating

- White powder coating requires more maintenance.
- Do not use abrasive scouring powders or scourers as they will scratch the surface.

- Color can fade to some extent when exposed to UV.
- Flame retarding - NEN-EN13501-1 A2-sl - Satisfying the same criteria as Class B for the SBI-test according to EN13823. In addition, under conditions of a fully developed fire these products will not significantly contribute to the fire load and fire growth.
- Dark colors can get very hot in sunny weather.
