- A: Of course, the parts that are permanently exposed to the elements are made of an extremely durable tarpaulin material that does not absorb any water.

# Maintenance

[www.extremis.com/maintenance](http://www.extremis.com/maintenance)

## SOFA UPHOLSTERY

- The tarp material on the Walrus is easy to clean with Extremis Multi Cleaner and an Extremis brush.
- Dependent on the conditions the Walrus is placed in, we advise to clean frequently. (e.g. rain, dust, proximity of trees, pets, insects, climate).
- Also keep in mind that white is a more sensitive color for outdoor use.

## SUNBRELLA BLANKETS & CUSHIONS

- Shake or brush off loose dirt immediately.
- Spray Extremis Multi Cleaner.
- Use a soft brush and make circular movements.
- Let the suds soak in for a moment.
- Rinse thoroughly to remove all soap residue.
- Simply allow to dry.
- It's also possible to put the blanket and the pillow covers in a washing machine (max 40°C). Follow the cleaning instruction on the label.
- If the cushion has metal brackets, we recommend turning the cover inside out first to avoid damaging the washing machine. In this case, leave the zipper open about 4 inch.

## WOOD

- Clean regularly with mild detergent.
- Thorough cleaning with Extremis Wood Cleaner.
- Oil the wood with Extremis Wood Protector. We recommend oiling the wood at regular intervals depending from location and general weather conditions.
- In order to smoothen the surface again after a thorough cleaning, lightly sand your wood with 120 grit sanding paper or a sanding pad.

## RECOMMENDED USE

- For Extremis Wood protector:

	
10 to 15 wood care treatments for a coffee table	75 - 100 ml for one coffee table
6 to 10 wood care treatments for a square table	100 - 150 ml for one square table
8 to 12 wood care treatments for a linking table	50 - 75 ml for one linking table
