

WALRUS

Extremis has turned the idea of outdoor seating completely inside out, by using a super robust cover material to make a sleek, weatherproof sofa that always looks great. An ingenious storage pouch in the back of the Walrus hides a foldout blanket and a thick cushion to provide the softness, comfort and touch that feel best in contact with your body.

This softness is provided in a matter of seconds: a warm, dry and comfortable place to sit is instantly available outdoors whenever the sun comes out. Yes, in all seasons!

INNOVATE OR DIE

A design process never stops according to extremis. Improvement is always possible. This is also the case with the 'outdoor sofa' idea.

To translate this concept literally: 'bringing comfort and softness outside'. But dirk wynants wanted to skip the hassle of literally dragging cushions outside...

ALWAYS A DRY, CLEAN SEAT

The parts that are permanently exposed to the elements are made of an extremely durable tarpaulin material (used for trucks) that does not absorb any water or dirt. The sofa's bulky form ensures that water drains away quickly. Thanks to this smooth, washable material, care and maintenance are kept to a minimum.
