

Dimensions

The AMAi base module is available in one dimension

Box dimensions

The AMAi comes in 6 boxes

Box 1: A-frame (2x)

Box 2: Tabletop

Box 3: Footrest

Box4: Top profile/tube

Box5: Endcaps

Box dimensions (inch)		L	W	H	Qty	Volume (ft3)	Gross weight (lb)	Net weight (lb)	Packaging weight (lb)
Powder coated version	Box 1	92.50	47.25	3.25	2	16.60	82.01	70.99	11.02
(with powder coated tabletop)	Box 2	114.25	37.0	3.25	1	8.12	119.71	115.30	4.41
	Box 3	114.25	7.50	2.75	1	1.41	23.59	20.94	2.65
	Box 4	114.75	7.0	6.0	1	3.18	41.67	37.26	4.41
	Box 5	7.75	6.0	3.5	1	0.35	1.32	1.10	0.22
	Total:					29.66	268.30	245.59	22.71
Galvanized version	Box 1	92.5	47.25	3.25	2	16.60	82.01	70.99	11.02
(with powder coated tabletop)	Box 2	114.25	37.0	3.25	1	8.12	119.71	115.30	4.41
	Box 3	114.25	7.50	2.75	1	1.41	23.59	20.94	2.65
	Box 4	114.75	7.0	6.0	1	3.18	26.24	21.82	4.41
	Box 5	7.75	6.0	3.5	1	0.35	1.32	1.10	0.22
	Total:					29.66	252.87	230.15	22.71

Extension module

The AMAi extension module is available in one dimension

Box dimensions

The extension module comes in 5 boxes

Box 1: A-frame (1x)

Box 2: Tabletop

Box 3: Footrest

Box4: Top profile/tube

Box6: Mounting kit extension

Box dimensions (mm)		L	W	H	Qty	Volume (m3)	Gross weight (kg)	Net weight (kg)	Packaging weight (kg)
Powder coated version	Box 1	92.5	47.25	3.25	1	8.48	41.01	35.49	5.51
(with powder coated tabletop)	Box 2	114.25	37.0	3.25	1	8.12	119.71	115.30	4.41

					Total:	21.54	211.87	194.65	17.20

Tabletop options

The tabletop is available in one dimension
There are multiple material options for the tabletop centerplate

Tabletop centerplates	Gross weight (lb)	Net weight (lb)	Packaging weight (lb)
Powder coated	119.75	115.25	4.5
Hellwood	317.5	313.0	4.5

Lighting & charging module

The lighting & charging module is available in one dimension
The lighting & charging module is already installed in the top profile of AMAi

200 cm dimmable **LED light** in the center of the profile (black RAL9005 powder coated)
Color temperature of 3000K (warm white)
100-300 VAC / 50-60 Hz

USB-C module
2 x 60w

Lighting & charging module
With LED light and 2 usb-c ports

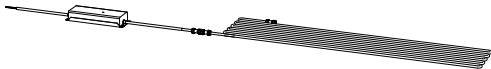

Power supply

The power supply is available in one dimension
One cable can power 2 AMAi modules.
In countries where this type of plug is not used, a different plug will need to be fitted

Connection cable Female
Rubber cable flexibel - H07RN-F
Length 5 m

24 V — IP68

Box dimensions

The lighting & charging module is packed inside the top profile

Box dimensions

The power supply comes in 1 box

Box 7: connection cable

NEN-EN13501-1 A1 Class A1 products will not contribute to fire in any stage, including fully developed fire. For this reason, they are assumed to be capable of satisfying all requirements of all lower classes as well.
 NEN-EN13501-1 A2-s1 Satisfying the same criteria as class B for the SBI-test according to EN 13823. In addition, under conditions of a fully developed fire these products will significantly contribute to the fire load a fire growthwell.

Warranty

Our quality promise, made solid. Material based warranty.

Each material has unique properties, and the warranty covers issues specific to each. Steel should not rust, coatings should not peel, and wood should not rot. We have outlined the warranty coverage for all materials in our Warranty Chart for your convenience.

Based on our 30 years of expertise with wood, fabrics and metals, we now offer 5 to 15 years warranty.

<div>15 — YEAR</div> <div></div>	<div>GALVANIZED STEEL</div> <div>Enjoy an impressive 15-year warranty on all galvanized steel parts. We proudly use this exceptional Cradle to Cradle certified technique to protect steel from rusting, incorporating it into nearly all our designs.</div>
<div>5 — YEAR</div> <div></div>	<div>COATED METALS, STAINLESS STEEL, WOOD AND SUNBRELLA</div> <div>We offer a comprehensive 5-year warranty on all powder coated metal parts, stainless steel components, wooden parts, and Sunbrella fabrics. This extension ensures that all key materials of our products are covered</div>

						
	Galvanized steel	Stainless steel	Coated metals	Wood species	Sunbrella fabrics	Other materials
Structural — Functional	15 years	5 years	5 years	5 years	5 years	2 years
Rust	15 years	5 years	5 years			
Wood rot				5 years		
Cracks				5 years for cracks > 4 mm		
Terms apply: Please read our commercial warranty statement here						

Good to know

- PEFC™ certified wood (Hellwood) originates from sustainably managed forests.
- There are two types of base- and extension modules, without or with lighting and charging module.
- Patented

Floor fastening

AMAI comes with an optional floor anchoring set: four steel plates to be fixed with bolts.

F.A.Q.

Q: Do you need to oil the wood?

A: Just like other types of wood, wood will gradually become rougher and start to turn grey as a consequence of exposure to the sun and rain. Small cracks and crevices can also appear as part of this process. We strongly advise everyone to treat the furniture with our Wood Protector. This 100% natural oil controls the moisture level within the wood, which makes the planks stay stable for longer, and the layer of oil also helps to prevent spilled liquids from being absorbed, so that stains tend to stay superficial. It is best to repeat this treatment at regular intervals.

Q: How wind resistant is the shade?

A: Tests in a windtunnel have shown that the shade withstands wind speeds up to 31 mph. Still, we strongly advise to close it sooner (from 18 mph is the rule of thumb).

Maintenance

www.extremis.com/maintenance

POWDER COATED PARTS

- Use Extremis multi cleaner, a 100% biodegradable detergent or common kitchen cleaning products. Avoid using aggressive products. These surfaces are best cleaned with a neutral cleaning product diluted in water.

GALVANIZED PARTS

- Clean with lukewarm water and a mild detergent or Extremis multi cleaner.

SHADE FABRIC

- Shake or brush off loose dirt immediately.
- Spray Extremis Multi Cleaner.
- Use a soft brush and make circular movements.
- Let the suds soak in for a moment.
- Rinse thoroughly to remove all soap residue.
- Simply allow to dry.

WOOD

- Clean regularly with mild detergent.
- Thorough cleaning with Extremis Wood Cleaner.
- Oil the wood with Extremis Wood Protector. We recommend oiling the wood at regular intervals depending from location and general weather conditions.
- In order to smoothen the surface again after a thorough cleaning, lightly sand your wood with 120 grit sanding paper or a sanding pad.

RECOMMENDED USE

- For Extremis Wood protector:

		
2 to 3 wood care treatments	1 to 2 wood care treatments	300 - 400 ml for one wooden center plate

Warnings ⚠

General

- Do not use any sharp tools to open the packaging.
- We strongly advise against using power tools.
- Tripping hazard, mind your step.
- Do not put out cigarettes on the table.
- Not graffiti proof.
- Do not leave children unattended whilst playing on the table.
- To avoid danger of suffocation, keep plastic bags away from babies and children.
- Colors can differ over years and from batch to batch.

Product

- Do not stand or jump on the table.
- Do not drag the table, but carry it with minimum 2 people.
- Anchoring the product has to be done by qualified people.
- For anchoring: use suitable bolts or screws from a specialized store depending on the material your terrace is made of.
- Tests in a windtunnel have shown that the shade withstands wind speeds up to 31 mph. Still, we strongly advise to close it sooner (from 18 mph is the rule of thumb).

Powder coating

- White powder coating requires more maintenance.
- Do not use abrasive scouring powders or scourers as they will scratch the surface.
- Color can fade to some extent when exposed to UV.
- Flame retarding - NEN-EN13501-1 A2-s1 - Satisfying the same criteria as Class B for the SBI-test according to EN13823. In addition, under conditions of a fully developed fire these products will not significantly contribute to the fire load and fire growth.
- Dark colors can get very hot in sunny weather.

Galvanized steel

- Galvanization will become less shiny when used outdoors.
- Flame retarding - NEN-EN13501-1 A1 - Class A1 products will not contribute to fire in any stage, including fully developed fire. For this reason, they are assumed to be capable of satisfying all requirements of all lower classes as well.
- Possible impurities in the immersion tank can cause black marks during galvanization, which are intrinsic to this industrial finishing technique.
- White marks on this zinc layer are also intrinsic to this procedure and will disappear when the furniture is put outdoors.
- This industrial finishing technique may result in a rougher surface. This is intrinsic to the process.

Wood

- When delivered, the wood is untreated.
- Wood is a natural material and its look is different for every slat, plank and tree.
- Wood will gradually become rougher and start to turn grey as a consequence of exposure to the sun and rain. We recommend oiling the wood at regular intervals depending from location and general weather conditions.
- Clean regularly with mild detergent. Never use a high pressure cleaner as this will roughen the wood's smooth surface and irreparably damage the wood's fiber.
- Thorough cleaning with Extremis Wood Cleaner.
- We strongly recommend that you treat your wood with wood protector to protect it from stains - small cracks and crevices can also appear as part of this process. We strongly advise everyone to treat the furniture with our Wood Protector.

High-tech polyester

- Shake or brush off loose dirt immediately.
- Do not use any aggressive detergents as they will remove the protective coating of the fabric.
- We strongly advise you not to use a high-pressure hose for cleaning.
